**SECONDARY BACKING**

Grey Tuft Loc\*

**ROLL LENGTH**

100 ft.

**STANDARD WIDTH**

8 ft. in Colors and 6 ft. in Black

**WEIGHT**

16 oz.

---

**FLAMMABILITY**

This indoor/outdoor carpet meets or exceeds non-flammability requirements of the following:

U.S. Department of Commerce (DOC FF-1-70 Pill Test)

Federal Flammability Automotive Standard (MVSS #302)

**UNPRECEDENTED COLOR STABILITY**

Long after carpet of conventional man-made colored BCF fibers start fading, the yarn in AGRESSOR continues to show its true colors, because this yarn is the most highly ultraviolet stabilized colored fiber yet developed.

**CARE AND MAINTENANCE**

Carpets manufactured by Syntec are inherently stain resistant, however, periodic care such as vacuuming and washing with household detergents and warm water will help the carpet retain the original appearance. All stains should be removed as possible as this enhances the ability to remove the stain.

**BACKING**

\*Grey Tuft Loc is a special backing designed for superior tuft lock and ravel reduction. It is light weight, drains easily and is flexible to mold to odd contours.
